CHAPEL MISSION PROJECT -

Every chapel service this year we will be accepting an offering. Every penny collected will be sent to

to fulfill our commitment to build a **Deep Bore Well**. Would you partner with us? Would you send just **50 cents** each chapel day in an offering envelope? If each Crossroads student brought 50 cents each week, we would almost have enough money in 1 school year to build our well.

Your support is helping to improve the health, education, economy, and the overall welfare of the lives of thousands of people. For many, your fit will make the difference between life and death. Below is a story from a farmer in Guatemala who, along with his whole village, has experienced the total transformation of safe water:

Our community is located in the northeast region of Guatemala, where the sun is strong and the land is very dry. The streams are dry most of the time and the closest river is seven kilometers (4.3 miles) away from our village. Our children had to collect water, where they had to climb down a cliff of slate – inhabited by poisonous snakes – to get a small container of water. This water is poisoned with pesticides and we can only use it for washing clothes and cleaning. But when we were thirsty and had nowhere to get clean water, we had no choice to drink from the stream. Our children and the elderly were gravely ill and we did not have the money to take them to the hospital or pay for transportation or medicine.

*But our prayers have been answered and the efforts of **causelife** have transformed the lives of our village. We now have clean water not just for our own families but to also share with someone that comes our way thirsty.*

For more info see www.causelife.org. Thank you in advance for your partnership in this worthy endeavor.
